A major part of our effort is to offer training opportunities to improve performance at both the personal and institutional level, which can be applied in a wide range of business sectors.

Mainstreaming Climate Change into National Development

Climate change poses a serious challenge to the attainment of the Millennium Development Goals. It is a major challenge at both national, regional levels. It will certainly affect all ecosystems as well as all human societies in different ways and in different degrees. It is therefore important to manage climate change risks as part of our development approach. Integrating climate change as a crosscutting issue in development plans will protect hard-won advances made to date and to be made in the future in reducing poverty worldwide. Such an integrated approach will make development more resilient by reducing climate impacts and identifying development opportunities that may otherwise be overlooked.

CODEV International provides policy and capacity development services on climate change to support developing countries respond to climate change impacts and integrate climate risks into national planning.

Mainstreaming climate change in planning and decision making processes is a crucial tool to ensure climate change adaptation. This approach involves taking into account risks and opportunities while putting in place adaptation measures that are attuned to the long-term vision of development.

Through these services, CODEV International supports national and sub-national governments to transform their development path to a low-emission and ecologically sustainable future.

VISION AND GOALS

Our mission keeps us at the vanguard of professional opportunities for the African community; opportunities that make their insertion in a globalized world easier in such a way that will place them in a continuous process of professional evolution, generating new skills and capabilities within a practical, and applicable context.

With a comprehensive portfolio of activities and training programs, mentees will develop new skills through a broad array of expertise that enable them to pursue an applicable experience and professional development.

We seek to be part of the professional success of our mentees by sharing our knowledge and expertise to attain the objective pursued through extensive technical cooperation programs

Our training programs embraces a multidimensional approach to sustainable development. In our institute, mentees will undergo several seminars, workshops and specialized activities in order to deliver more effective and engaging training programs, increase learning retention and enhance their methods of delivery.

MEETING WITH PROFESSIONAL MENTORS

The aim of these appointments organized by CODEV International is to help mentees develop their own skills, strategies and capabilities to tackle the next hurdle more effectively and to provide access to knowledge, situations or networks.

PARTICIPATION IN CONFERENCES AND FAIRS

In the course of the training program, we offer our mentees the opportunity to attend conferences and fairs in order to raise awareness about a particular theme and to enhance their capacity building.

Our Vision

“A world in which knowledge-empowered people, institutions and organizations achieve results to overcome global challenges.”

Our Mission

“To develop capacities, enhance global decision-making and to support country level action for shaping a better future.”

The world is faced with challenges in all three dimensions of sustainable development – economic, social and environmental. CODEV International aims towards contributing to the deliberations on sustainable development; strategies need to be ambitious, action-oriented and collaborative and to adapt to different levels of development. Achieving sustainable development will require global actions to deliver on the legitimate aspirations towards further economic and social progress, requiring growth and employment.

Faced with resource scarcity and capital shortages, the main concern of actors and development professionals is to implement actions and interventions that respond to the needs of populations expressed in terms of impacts and, effects and outcomes. CODEV International steps in to provide a coherent set of seminars aimed at project development managers, coordinators and professionals.

Our training programs are designed to meet the required needs of governments, donors and development aid agencies, we seek to lead participants towards the goals that we have defined to help acquire and retain skills longer. We have always endeavored to develop the most effective tools over the years; our mentors are determined to develop procedures for all training programs to identify barriers that are preventing skills from being applied and to increase productivity.
